

# Zapier Integration Set-up

This guide has been put together to give you a step by step guide for setting up an integration with Zapier and Approval Donkey.

What is Zapier and how do I set it up?

## **Connect Approval Donkey to hundreds of other apps with Zapier.**

The Zapier & Approval Donkey Zapbook ([https://zapier.com/zapbook/Approval Donkey/](https://zapier.com/zapbook/Approval%20Donkey/)) lets you connect Approval Donkey to hundreds of other web services. Automated connections called Zaps, set up in minutes with no coding, can automate your day-to-day tasks and build workflows between apps that otherwise wouldn't be possible.

Each Zap has one app as the **\*\*Trigger\*\***, where your information comes from and which causes one or more **\*\*Actions\*\*** in other apps, where your data gets sent automatically.

## **Getting Started with Zapier**

Sign up for a free Zapier (<https://zapier.com/sign-up>) account, from there you can jump right in. To help you hit the ground running, here are some popular pre-made Zaps ([Approval Donkey Zapbook](#)).

## **How do I connect Approval Donkey to Zapier?**

- Log in to your Zapier account (<https://zapier.com/sign-up>) or create a new account.
- Navigate to "Connected Accounts" from the top menu bar.
- Now click on "Connect new account" and search for "Approval Donkey"
- Use your credentials to connect your Approval Donkey account to Zapier.
- Once that's done you can start creating an automation! Use a pre-made Zap or create your own with the Zap Editor. Creating a Zap requires no coding knowledge and you'll be walked step-by-step through the setup.

## Setting up Zapier using Zap Templates

**Note:** To set-up conditional mapping using e.g. tracking codes or set amounts please refer to the '**Xero Conditional Fields**' Guide.

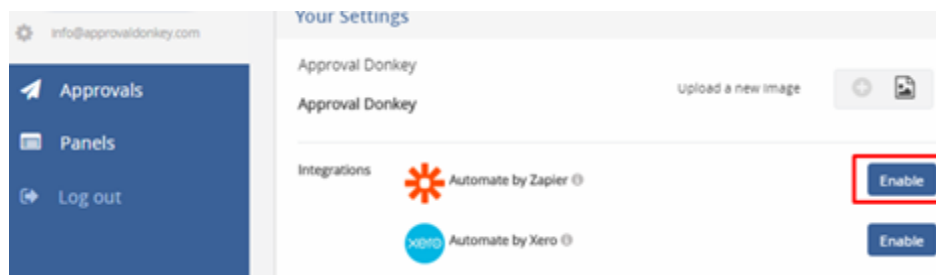

Login to the Approval Donkey Dashboard.

Select the Integration Icon to go to the Settings page.

Select the Enable button for the Zapier icon.

Select 'Make a Zap with Approval Donkey templates'

Select from any one of our popular Zap templates

 → 	Create a new card in Trello for request status changes on Approval Donkey	<a href="#">Use this Zap</a>
 → 	Create a new task in Asana for request status changes on Approval Donkey	<a href="#">Use this Zap</a>
 → 	Create a new note in Evernote for request status changes on Approval Donkey	<a href="#">Use this Zap</a>
 → 	Create a new email in Gmail for request status changes on Approval Donkey	<a href="#">Use this Zap</a>

Follow the Zapier steps and select the 'Create the Zap'

## Create a new note in Evernote for request status changes on Approval Donkey

Want to get status updates on your approval requests in Approval Donkey without leaving Evernote? Now with the help of Zapier the tedious work is done for you. This integration creates a new note in a specific notebook when a requests status changes on Approval Donkey.

*Note: You can choose to get updates for all status changes or just e.g. Approved requests.*

### How this Approval Donkey-Trello integration works

1. An approval requests status is changed on Approval Donkey
2. Zapier creates a new note in a specific project on Evernote

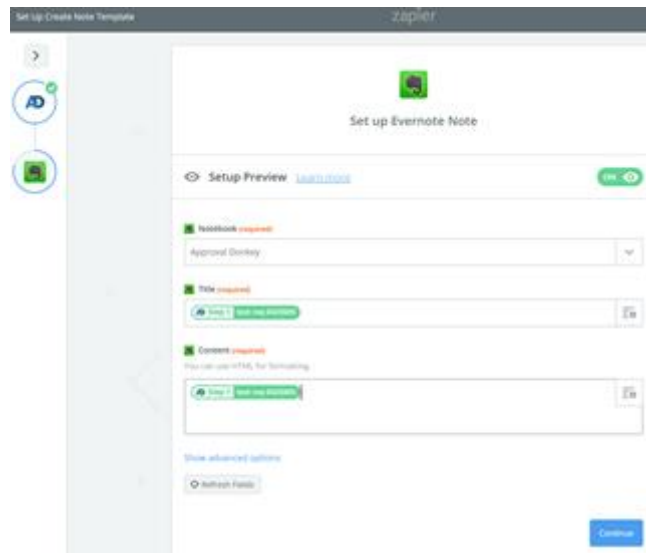

### Apps involved

Approval Donkey  
Evernote

[Create this Zap](#)

[Want to do something else? Explore other Zaps!](#)

Follow the Zapier workflow to set-up the Zap.

## It's Done!

Zapier guides you through the process to make the set-up really easy. Just close the Zapier window to go back to Approval Donkey.

Awesome! Your Zap is working.

YOUR ZAP IS  ON

While on, this Zap will automagically check for your Approval Donkey Approval Status Updated every 15 minutes.
